Starry Krueger, Pres. Rural Development Leadership Network

*Every Inch Love Will* is a miraculous memoir dedicated to and written for a magnificent man. This book tells a story of true love and devotion which spanned over 23 years. Will and Meredith shared an unbreakable bond that tested time. Throughout their marriage, they faced many trials. However, they held onto each other and challenged the world as one. ... He was her biggest fan and she, his. And what would you expect from a couple so deeply in love?

*No Recipe Intended* by Shirley Francis. Ms. Francis, a Florida writer and published poet, was born in Covington County Alabama and raised in Pensacola, Florida where she resides.

*No Recipe Intended* is a collection of poems and short stories by Shirley Francis. This work is edgy. This is not for the faint at heart. The characters pop off the pages into full view. Her themes are for mature readers as the work includes love, faithfulness, lust, violence, revenge as well as kinky relationships, racial violence, and perverse sexual encounters.

Advance Praise for *No Recipe Intended*

This intriguing and thought-provoking collection of poems and short stories by Shirley Francis exposed the good, the bad, and the ugly. She discusses spirituality and lustful and seductive themes without missing a beat. *No Recipe Intended* is a must read for poetry lovers.

-William Trest Jr., Author, *Reverse Guilty Plea* & *The New Populist Party*

I resonated with Ms. Francis's poems and stories which reminded me of so many people you see growing up in our black communities. Love and hate, shame and pride, and joy and sadness, often share the same bed in our community. Yet, survival is the goal no matter the circumstances. Ms. Francis reminds us to just breath. I will proudly add *No Recipe Intended* on my bookshelf.

## *Time And After Time Ahead*

*Time And After Time Ahead* is a scholarly book and a very enjoyable read. This text will teach some and remind others that the Romans altered time when they replaced the Hebrew calendar with the Gregorian calendar and the Romans muddled religion when she added pagan rituals into mainstream Christian culture.

Read TAATA which contains pertinent biblical historical context and explores, at best, the dogmatic and lasting impact the Roman Empire (27 BCE - 1453 CE) had on Christianity.

### *Lily Darling*

**Lily Darling**, a novella, by Malesha Smith, is an inspiring story of how Lily, a Middle schooler, rose from the ashes of self-pity to self-assurance and became a voice for others.

One in five USA school pupils are bullied nationally. Lily Mitchell, the main character, a Langley Middle School student, is subjected to the harmful behavior of bullies. The negative forces caused Lily to abhor the image of herself in the mirror, her bus ride to school, and her existence on the school landscape.

A new girl at school, Jerica, gradually brings balance to Lily's existence by teaching her the principles of positive reaffirmation. One day Lily pulled Julius, a stranger, from the butt end of a tiger fight in an alleyway. In the end, can Lily and Jerica save Julius?

## James Meredith

*Warrior and the America that created him*

A Meredith *Etc.* Book

By Meredith Coleman McGee

In the 20th century, on September 30, 1962, James Meredith became the first Black student resident at the University of Mississippi, until then a segregated establishment—a watershed event in the USA Civil Rights movement. Less than one year later, Meredith graduated with a degree in political science and history. The day after his graduation from “Ole Miss,” Meredith moved his family out of the southern state of Mississippi because he was a target on the Ku Klux Klan’s hit list.

James Meredith is an icon who took on the U.S. federal government and forced the Kennedy administration to take a stand on integration. *James Meredith: Warrior and the America that created him* provides an insightful, revealing look at the America which created Meredith and his generation. The book examines Meredith’s early life; his actions that resulted in the integration of Ole Miss; his 1966 “March Against Fear,” during which he was shot by a

shotgun-wielding sniper; and voting rights stories.

This biography covers Meredith’s life from birth to age 85. It contains over 50 images including rare family pictures, and explores Meredith’s relationship with famed Civil Rights activist Medgar Wiley Evers, Martin Luther King, Jr., and others. The last two chapters focus on closing America’s wealth gap in modern-day society.

## Woman Preach

By Rev. Dr. Louis Blake Hathorn

This book gives many beautiful examples of women and how they have served God, the church, and the people. Let this book serve as an inspiration to those who feel the call that their services are needed. The world has many wrongs to be righted. To deny the talents of over half its population is a grave injustice to all.

I felt the call early in my life to be a missionary. My favorite place to talk to God was sitting in a pine tree in the middle of a huge field with wind softly whistling through it. It was between God and me alone in the pine tree. Not those who devise organizational structures. Not those who aren't

accepting of a woman's call to preach. Certainly, obstacles can get in the way. It's not an easy way, but if a woman is called, it's THE way.

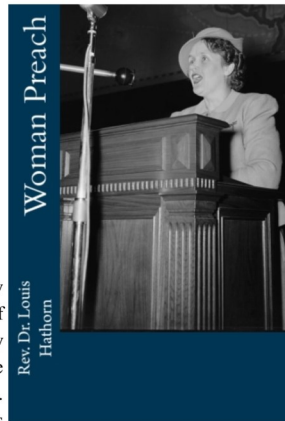

Women Can Preach! Woman Preach!!

## My Brother Bo Addicted in Paradise

By Richard Hulse  
Foreword Dr. James G. Hall  
Introduction by Meredith Coleman McGee

In his Foreword, Dr. James G. Hall says, "Every family, unique as a snowflake, has exclusive joys and sorrows. We all know families rocked by the tragedy of some form of addiction and the self-destructive behavior that inevitably results. This is a compelling story of the Hulse brothers, Valley boys, from Southern California, a great place to grow up and get a start in life.

They had a nice home and loving parents. Rich does fine. Bo does not. There is something wrong. This is the true story of one brother trying to help the other."

Mary Mallory discovered after reading this biography that Richard Hulse hopes his younger brother's story will shed light on the prescription drug epidemic.

Mallory's editorial Book Review noted, "Richard Hulse hopes to turn the tragic loss of his younger brother Bo into something

that can help others...recognize changing patterns in a loved one's life and the baffling effects of addiction."

**Subject:** prescription drug abuse, substance abuse, actor extra, Hollywood, California

that can help others...recognize changing patterns in a loved one's life and the baffling effects of addiction."

### Juvenile Offenders

From Big Wheels to the Big House

Rosemary Jenkins

This book is a powerful tool in countless ways. It gives a voice to those who have been silenced. It offers important insights into crime, punishment, and circumstance. It provides an opportunity for empathy and understanding – for the offenders and the victims.

• Congresswoman Barbara Lee, CA

Most valuable in this book are the searingly honest reflections by prisoners on the damage they inflicted on their victims and the victims' families, the sense of shame and regret, the determination to live a better life, and the hope of redemption. Louie Gomez' powerful essay, "In My Victim's Shoes," is stunning.

• Jeanne Bishop, Assistant Cook County Public Defender/Author, *Change of Heart: Justice, Mercy and Making Peace with My Sister's Killer*

This book not only serves as a source of enlightenment on our justice policies, it also offers important insights into how to rectify many of the problems inherent in the system. *Juvenile Offenders* is well-worth the read!

## The Southern Jewel: The Elements Within

By Ty A PATTERSON

Ironically or purposefully, the first chapter of poet Ty A. Patterson's first book, "Southern Jewel: The Elements Within," is Earth. It alone has the power to bury the reader alive with conceit or excavate their soul with remorse. The choice is theirs to either embrace Patterson's empowering words of self-fulfillment or be damned to continue on a path of doom. The following three

chapters – Fire, Water and Air – also help to quench one's thirst for acceptance of self and others. Good luck in trying to stop to catch your breath.

## Nashida

*Visit the Smith Robertson Museum*

By Meredith Coleman McGee  
Introduction Dorothy Stewart  
Moses Meredith Cultural Arts Children's  
Book Series Volume 1

Women for Progress of Mississippi Inc. Founder Dorothy Stewart stated, "Congratulations to Meredith C. McGee for creatively weaving the story of Nashida's visit to the Smith Robertson Museum. This book provides information which will inspire the young and the old alike to read, visit and touch history."

Within the museum walls and through dialogue with her parents Nashida is introduced to Richard Wright, Medgar Evers, James Meredith, Fannie Lou Hamer, Unita Blackwell, the Transatlantic Slave Trade, Jim Crow, the concept of separate but equal, and much more.

*Nashida: Visits the Smith Robertson Museum* will inspire young readers to seek knowledge in their own backyards. What an excellent way to present African American history through the eyes of this second grader. Readers are taken through

Nashida's thought process as she internalizes everything she sees at the museum. This was an easy and enjoyable read for young and old readers. Our 6th grader read it to our kindergarten and they both enjoyed it!

Jackson City Councilman Tyrone Hendrix and Ercilla Dometz-Hendrix, *Founders*, South Jackson Proud Community Development Corporation

## The Southern Phoenix

By Rosemary Jenkins

THE SOUTHERN PHOENIX was born out of the Black experience in America during the mid-1900s. It is an intense story reflecting the lives of very real people. Throughout this historical fiction novel, the reader is introduced to events such as the sit-ins down South, the 1965 riots in Watts, fair housing issues, and scenes--poignant, joyous, riveting, and sad portraying daily life for families of all stripes.

In the beginning, we meet the main characters among whom is the protagonist, John David Johnson (otherwise known as Ba' Bro'). We learn of their wants and needs, their frustrations and triumphs. We witness Mr. Johnson's personal growth, though subtle at first, as he evolves from an emotionally devastated Southern farm kid to a mature, determined young man who encounters many harsh travails. He becomes a strong Black man, a devoted family man, and a civil rights attorney of note who triumphs over innumerable crushing challenges.

Ba' Bro's life is a testament to what education and enlightenment can mean to any individual—to all of us—and to how the world can change. His is a story of how one can rise from the ashes and become a Phoenix in his own right.
